CUSTOMS MEMORANDUM CIRCULAR 91-2026

Photo Credit:
Business World Online

SUMMARY

This Circular disseminates the Department of Trade and Industry – Export Marketing Bureau’s endorsement of the updated List of Prohibited and Regulated Products for Export as of December 2024. The Bureau of Customs is requested to undertake the necessary measures to ensure effective enforcement and monitoring of the updated list.

ACTIONABLE ADVICE

Concerned entities engaged in export activities are advised to review the updated List of Prohibited and Regulated Products for Export as endorsed by the Department of Trade and Industry – Export Marketing Bureau. They should ensure that all export goods are properly classified and screened against the updated list prior to shipment, and that any required permits, clearances, or authorizations for regulated products are secured in advance. Internal compliance controls and product review procedures should be strengthened to prevent the inadvertent export of prohibited items.
